

AF3 Phoenix - Feature #3120

removing "use case"

10/26/2017 02:02 PM - Tatiana Chuprina

Status: Rejected	Start date: 04/11/2018
Priority: Normal	Due date:
Assignee:	% Done: 100%
Category:	Estimated time: 0.00 hour
Target version: Backlog	
Description "use case aspect" has been already removed from the menu of Requirements (from registerPrimaryPrototype) (see, how it was in "use case aspect.jpg"). Due to code freeze, there is no possibility to remove the respective GUI now. It should be done in next release.	
Subtasks: Support # 3379: Removing Use Cases from MIRA Rejected	

History

#1 - 12/19/2017 01:47 PM - Anonymous

- Assignee changed from Anonymous to Anonymous

#2 - 12/26/2017 10:49 PM - Anonymous

- Assignee changed from Anonymous to Anonymous

The GUI has already been updated.

However I think we are not using use cases at all.

@Vince: shall we try to get rid of all the code about use cases?

#3 - 12/26/2017 11:18 PM - Anonymous

Agreed in principle, but might be worth discussing with Tatiana: she made a literature survey on requirements engineering, and maybe she could argue if she thinks we need to keep them.

#4 - 01/15/2018 03:58 PM - Tatiana Chuprina

- Status changed from New to Resolved

Guys, I would leave it. At least for some time, because "use cases" are a part of MIRA framework. We can, perhaps, stash this code.

#5 - 03/01/2018 01:52 PM - Anonymous

- Assignee changed from Anonymous to Anonymous

I suspect that the code referring to use cases might be marked already as "deprecated".

@Filip: can you please confirm?

#6 - 03/01/2018 02:29 PM - Anonymous

There is no deprecated code in mira and mira.ui plugins

#7 - 03/01/2018 03:09 PM - Anonymous

There is a package org.fortiss.af3.mira.model.usecase.impl which is the one that I think is obsolete.

However it is not marked as deprecated because some generated code is referring to it.

We might need to remove "usecase" from the mira model, see that nothing is broken, and then get rid of this classes.

#8 - 03/02/2018 03:42 PM - Anonymous

- Status changed from Resolved to Closed

Removed all the code concerned with Use Case.

From the SimpleTrafficLightsExample and STLC Beagle Java Deployments examples were removed the Use Case requirements.

#9 - 03/07/2018 09:11 AM - Anonymous

- Status changed from Closed to In Progress
- Target version changed from AF4 Requirements to AF3 2.13 RC2 (Tested, Bug-free)

@Filip: I re-open this issue because Johannes explained me yesterday that this is not the correct way of doing this (I was having a similar problem after renaming testing.method.random).

The use case is part of the meta model and therefore present in every old project that was using it (as it was the case with simple traffic light). If now someone tries to load an old project, it will not and the will go a null pointer in the console.

What it needs to be done is to write a migrator. Here there is a small explanation.

https://af3-developer.fortiss.org/projects/autofocus3/wiki/Model_Migration

#10 - 04/06/2018 10:09 AM - Simon Barner

- Target version changed from AF3 2.13 RC2 (Tested, Bug-free) to AF3 2.14 RC1 (Feature Freeze)

The metamodel has been restored (classes marked as deprecated), and the migrator is in place.

Moving the ticket to AF2.13 post release, so the migrator and the use case metamodel can be removed for good.

#11 - 05/18/2018 11:49 AM - Anonymous

- Status changed from In Progress to Resolved

This issue duplicates the issue [#3379](#)

#12 - 05/18/2018 11:49 AM - Anonymous

- Status changed from Resolved to Closed

#13 - 05/28/2018 02:52 PM - Anonymous

- Status changed from Closed to Feedback

There are still references to UseCase in the code.

And UseCase is still in the model

Also the migrator needs to be removed

#14 - 05/29/2018 01:45 PM - Anonymous

By the way, since you are the developer of this issue, you should not be the one closing it. Whenever the issue is resolved, you can assign it to me and I'll review it and close it

#15 - 05/13/2019 02:08 PM - Johannes Eder

- Target version changed from AF3 2.14 RC1 (Feature Freeze) to Backlog

#16 - 07/02/2019 05:31 PM - Johannes Eder

- Assignee changed from Anonymous to Johannes Eder

#17 - 12/10/2019 11:56 AM - Johannes Eder

- Status changed from Feedback to Rejected
- Assignee deleted (Johannes Eder)

Rejected, due to the fact the mira will be refactored to a minimal version.
