

Design Space Exploration - Change Request #3595

Create a DSML interface for Set references

Target version:	AF3 2.18 - Feature Freeze		

Description

Current Situation.

The ModelElementPropertyLiteral references the set to which it refers. In the MOEA plugin, a similar DSML extension is used that must have the same field.

Proposed Improvement.

Define an interface that specifies the set reference (such as a IBoundExpression) to avoid code duplication and potentially broken APIs.
