

AF3 Phoenix - Change Request #3892

Adapt exploration to new MIRA

12/09/2019 10:48 AM - Andreas Bayha

Status:	Rejected	Start date:	12/09/2019
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Product maintainance	Estimated time:	0.00 hour
Target version:	AF3 2.17 (Feature Freeze)		
Description			
The DashboardWizardSelectRequirements is broken due to the MIRA minimalization. At the moment, it is commented out. This issue is about adapting it.

#4 - 12/10/2019 10:21 AM - Johannes Eder

- Status changed from Resolved to Closed

- Assignee deleted (Johannes Eder)

#5 - 12/20/2019 03:32 PM - Simon Barner

- Status changed from Closed to Feedback

- Assignee set to Alexander Diewald

Nothing has been changed in master. Could you please re-check?

I removed the following for now:

- ModelSnapshotExtractUtils::createRequirementModelSnapshot()
- DashboardWizardSelectRequirements

#6 - 03/25/2020 06:21 PM - Alexander Diewald

- Status changed from Feedback to New

#7 - 03/25/2020 06:33 PM - Alexander Diewald

- Status changed from New to Feedback

- Assignee changed from Alexander Diewald to Simon Barner

- % Done changed from 100 to 0

This ticket would require an allocation mechanism to specify the components implementing a safety function that is described by some requirement. I think, this will most likely not be done any more. Please reopen and reassign to me if that shall be done. Otherwise, please reassign to @eder and ask for rejection.

#8 - 05/11/2020 11:34 AM - Johannes Eder

- *Status changed from Feedback to Rejected*

- *Assignee deleted (Simon Barner)*

Rejected as proposed. Should be re-opened/re-created if necessary.
