<b>Description</b>			
<p>The Glossary implementation used to be more sophisticated in swt. Some features could not yet be reimplemented, since the fx integration does not yet support it.</p> <p>This includes:</p> <ul style="list-style-type: none"><li>- Highlight Glossary terms when they are used in text fields as requirements, comments etc.</li><li>- Add possibility to right-click on words in text fields as requirements, comments, etc to add them to the glossary.</li></ul>
