

AF3 Phoenix - Change Request #4023

Add type arguments to IConverters and IValidators

05/15/2020 03:42 PM - Alexander Diewald

Status:	New	Start date:	05/15/2020
Priority:	Normal	Due date:	
Assignee:	Alexander Diewald	% Done:	0%
Category:		Estimated time:	10.00 hours
Target version:	AF3 2.18 - Feature Freeze		
Description			
<p>IConverters and IValidators required type arguments since Java version 8 (or so). We still use their raw versions such that we get a lot of warnings.</p> <p>Parameterizing these classes would remove a lot of warnings while being trivial to implement. By that, we converge to a point where we could really make use of the warnings.</p>
