

## AF3 Phoenix - Bug #4032

### Enable workaround for checkboxes in tables also on Linux

06/26/2020 05:13 PM - Simon Barner

<b>Status:</b>	Closed	<b>Start date:</b>	06/26/2020
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>	AF3 2.18 - Feature Freeze		
<b>Description</b>			
<p>On MacOS, due to compatibility issues with current graphics libraries, a workaround has already been in place for a long time to display [X] has a checkmark instead of an on-the-fly screenshot of a checkbox (see <a href="#">#2443</a>).</p> <p>Since the same problem is also frequent on Linux, the workaround is also enabled there.</p> <p>Once the new JavaFX based implementation of allocation tables (<a href="#">#3915</a>) and annotation view (<a href="#">#4014</a>) will be finalized, only little to no code will be actually use SWT-based tables with checkmarks.</p>
